

THE REGISTRATION to the 6th edition of the international Summer School series INFIERI, to be held at the AUTONOMA in MADRID (UAM), 8/23 to 9/4 2021, IS OPENED.

The School announcement is online at CERN with links to FACEBOOK, TWITTER and LinkedIn:

<http://home.cern/news/announcement/physics/infieri-2021-23-august-04-september-madrid>

This is a 2-weeks, cross disciplinary School with a 3 Tiers program: Lectures, Hand-on Labs and evening keynotes.

The UAM school, will include the participation of the School of Science, the Institute for Theoretical Physics (IFT), the Centre of Micro-Analysis of Materials (CMAM), the IMDEA Nanoscience Institute, the UAM Polytechnic School, located on the UAM Campus, as well as of CIEMAT, Hospital HM Puerta del Sur in Madrid, University Rey Juan Carlos (URJC) and University Polytechnic of Madrid (UPM) with Hands-on Labs organized in all these different places.

The school will only be offering in person attendance as essential to the traditions of the school are the Laboratory sessions and the close interactions of international experts in fundamental research and instrumentation from Academia and Industry. The organizers are making every provision to ensure full safety.

The Program-at-glance gives an overview of the Lectures and overall school program
